

*Caring Communities,
Loving Life*

Rosewood Manor

Welcome.

A warm welcome to Rosewood Manor, a residential and nursing home offering quality care in a comfortable setting, brought to you by a team dedicated to raising living standards for those in their later years.

We offer a real home from home for our residents, with an atmosphere that celebrates life and encourages activity in a safe and stimulating environment.

About our Home

We want our residents to feel at home as soon as they walk through our doors.

At Rosewood Manor, we have 70 state-of-the-art bedrooms that are tastefully decorated and equipped with en-suite bathrooms, TVs with Freeview, Wi-Fi, mini fridge and much more. All rooms feature a call bell system meaning that help is always there if it's needed.

Areas throughout our home have been designed to rival a comfortable hotel, where you are surrounded by welcoming colour palettes for walls and soft furnishings, along with comfortable and supportive furniture to maintain that homely and personal feel.

We have hairdressing facilities on-site so residents can look and feel their best, as well as plenty of spacious lounge and dining areas that make for the perfect environment to socialise with new friends. Our on-site cafe is the ideal place to relax when family and friends come to visit, plus areas around the home offer floor to ceiling windows, giving beautiful views of the outdoor space.

Secure landscaped gardens surround the home, with our beautiful sensory gardens providing safe wandering pathways and areas where residents and their visitors can sit and enjoy the surroundings.

Activities and Lifestyle

We feel life is for living and that shouldn't change as the years go by, which is why so many of our residents find that their world expands when they join us. They revive abandoned interests, explore new hobbies, widen their social circle and rediscover their zest for life.

We're all aware of the emotional and physical benefits of socialising, so taking part in group activities is always encouraged, from flower arranging to yoga, movie nights and music sessions, plus residents with green fingers are encouraged to get involved in a spot of gardening.

Our activities coordinators are on hand to put together a fun and engaging calendar that's built around our residents' individual wants and interests. We encourage our residents to have a chat about what they love to do when they join us, and if there's anything they want to learn or try; it is their home, after all.

Not forgetting the heart of the home, the dining area. Every meal we serve is freshly prepared on the day in our professional catering kitchen; with every taste and dietary requirement catered for, making sure everyone gets the nutrition they need for the best possible health. Our head chef and team of talented cooks use ingredients sourced locally, wherever possible, producing dishes such as the ultimate classic, fish and chips, to delicious Thai curries.

Care We Offer

The happiness, health and wellbeing of our residents are, of course, our absolute priority, which is why we spend time getting to know our residents to find the right care for them. At Rosewood Manor we offer the finest residential, respite and dementia care, with a team of highly trained carers whose level of compassion and skill are of the highest standards.

Our residential care offers maximum independence and privacy, combined with opportunities to socialise and the reassurance that there is always support and security.

Recovering from illness or just need some time out? Then respite care could be the perfect option. Guests joining us for respite care will still receive the same high standards of care as our long-term residents, benefitting from all the same facilities and services.

As well as our standard residential option, we offer specialist care for people living with dementia. Our facilities have been designed to allow as much independence as possible, with care offered in a dignified and unobtrusive way.

“

The staff are amazing, they treat my grandmother with kindness, dignity and respect at all times.

Kayli B (Granddaughter of Resident)
